Friday Nov. 13	Richland Center	10:00—11:30	Richland County Health & Human Services, 221 West Seminary Street

An annual flu shot is recommended for everyone 6 months of age and older. Those at higher risk of influenza complications are:

- Persons 50 years of age or older.
- Children 6-59 months of age and those who live with them and their out of home caregivers.
- Residents of long-term care facilities housing persons with chronic medical conditions.
- Anyone with a long term health problem such as heart, lung or kidney disease, asthma, metabolic disease such as diabetes, or anemia and other blood disorders
- Anyone with a weakened immune system (HIV/AIDS or on cancer drugs)
- Anyone aged 6 months to 18 years especially if on long term aspirin therapy
- Pregnant women
- Healthcare workers or anyone in close contact with people at risk of serious illness

Talk with your healthcare provider before getting a flu shot if you:

- Ever had a serious allergic reaction to eggs or to a previous dose of influenza vaccine
- Have a history or Guillain-Barre Syndrome

Standard Influenza vaccine is \$40.00, High-Dose Influenza vaccine is \$50.00. Pneumonia vaccine is \$75.00.

Influenza and pneumonia vaccines are reimbursable by Medicaid and Medicare Part B. People with Medicaid or Medicare Part B will be required to present their Medicaid or Medicare card at the clinic and will not have to pay for the vaccines. If Medicare Part B is not your primary coverage (eg. You are covered by a Medicare HMO) you may be required to pay for the immunizations, as we are not providers for all insurance carriers. Please ask if you are unsure about your coverage. Please call Richland County Health and Human Services Public Health at 647-8821 and ask for public health with any questions.
