**Approve Minutes:** December 18, 2019 meeting minutes tabled till next meeting.

**Citizen Comments:**

**Comprehensive Community Services (CCS) Regional Meeting Participation:**

Myranda stated that our region is meeting all requirements. We are currently part of Lutheran social services for youth crisis services. Faye asked how that affects the crisis workers. Myranda stated that it wouldn't impact the services we provide. NWC is the call center that we all use, we will still be reaching out at a agency for our county residents. We used to get 60 percents of the Medicaid allowable rate but now we get full funded. Crisis is now going that direction as long as we are a part of shared services in the region. It will be better for the county if we can collect financially.

**Richland County Comprehensive Community Services (CCS) Updates:**

We have 52 program participants. 26 males 26 females. A few more children than adults. The diagnosis provided are primary diagnosis for current clients Faye mention that the numbers are down. Myranda stated that we did have some disenrollments but we are currently working on enrolling new clients to the program. We have a new worker, Corey Kanable, in training. We also hired 2 nurses on board to assist within the program. The hopes that in a couple months we wont have a to be servced list. The addition of staff will be a helpful change.

**Comprehensive Community Services (CCS) Consumer Graph:**

### **Site Visit Summary.**

We had our site visit the first week of January. The site audit was very pleased with our model and how we are organizing our documentation. She found no content problems with our notes. A happy note for CCS. We had citations regarding personal issues, mostly how background checks had been performed. We also took a citation in substance abuse in another area. Unfortunately, there is no room for remediation to redact the citations.

### **Illness Management and Recovery Model Review:**

This year we hope to get our staff training in 2020 in illness management for provide these services for consumers. This plan is consumer driven. Myranda reviewed the model for illness management and recovery review handout. The model is based out of WI, most specifically mendoata, to allow consumers to manage their illnesses, develop their own goals for recovery and, make informed decisions about their treatment. The model is similar to the CCS program. It focuses on relapse prevention with the input of client. Myranda said it's important we don't lose focus of **CSP** while growing in CCS. Faye asked how we get consumers to do the program. Myranda stated we will allow the consumer to choose and pick what areas they work on and staff will use it in their sessions with the consumer. Another resource for staff to use. It's similar to our RAP program. Different tools for the consumer to use to aid in the reduction of relapse. Consumers can take this information and tailor it to their needs. Corey Kanble stated that model gives more flexibility in the consumer's choice of how to help with their recovery.

### **Other Agenda Items:**

What are the requirements for the committee. What can we do to bring more members into the committee.

**Next Meeting:** March 22, 2020 at 10:00AM.

**Adjourn:** A motion was made by Ashley Ferguson and was seconded by Faye Bugahagen. to adjourn the meeting. Motion carried. Meeting was adjourned at 10:45am

Respectfully Submitted,

Jaymie Bruckner  
Confidential Administrative Secretary
