Richland County Board of Supervisors - Agenda Item Cover

Background: *(preferred one page or less with focus on options and decision points)*

Richland County is continuing to transition to an administrator model of government, and state statute 59.18 provides the basis for this action to affirm existing appointments, giving an Administrator the power to “. . . supervise the heads of all departments of the county except those elected by the people . . .” Furthermore, the statute says, “the county administrator shall also . . . supervise all department heads where the law provides that the appointment shall be made by a board or commission, by the chairperson of the county board or by the county board.”

These appointments help solidify the relationship between the County Administrator and the identified department heads and helps set context to a performance evaluation program and defines the relationships in the event that corrective action or removal is necessary.

Position with statutory languages other than 59.18, defining actions will be recognized, and when questions arise on authority for such actions I (as the County Administrator) intend to communicate with the Board and sub-bodies on appropriate action with guidance from corporation counsel.

For some of these department head positions, future appointees that are filling vacancies post- arrival of an administrator will be subject exclusive to chapter 59.
